Subject: urgent attention to the situation in Iran

Dear,

I am writing to ask for your urgent attention to the situation in Iran. People have risen up once for their freedom, and the government is responding with violence, including killings, after shutting down the internet to silence the news and communications.

Netherlands is home to a very large Iranian community, many of whom have family and loved ones directly affected by this repression. I ask you to use your position to do whatever is possible - diplomatically, politically, and publicly - to support the Iranian people and stop these actions.

Thank you for your time and attention.

Sincerely,
