Onderwerp: Request for Humanitarian Visa and Asylum For At-Risk and Vulnerable Afghans Registered with UNHCR in Pakistan

U ontvangt niet vaak e-mail van 5.1.2.e <5.1.2.e@gmail.com>. [Ontdek waarom dit belangrijk is](#)

My name is 5.1.2.e and I am currently living in Pakistan with my family as a registered asylum seeker with the United Nations High Commissioner for Refugees (UNHCR). Given our registration with UNHCR, I kindly request that our case be reviewed carefully so that the extent of the threats and dangers we have experienced can be fully understood. Unfortunately, we are living in extremely difficult and unsafe conditions—without proper shelter, and without access to basic health, education, or essential services. The uncertainty about our future, especially for my children, causes us deep emotional and psychological distress. Life in Pakistan is becoming increasingly difficult. We have no access to clean drinking water, stable electricity, or gas. Additionally, the pressure and restrictions placed on Afghan refugees by the Pakistani government—including the threat of deportation, arrest, and a constant atmosphere of fear—have left us in an unstable and worrying situation. With hope in your country's humanitarian values and supportive system, I sincerely request that our case be considered for a humanitarian visa.
